## EDUCATION

Bachelor of Technology - Computer Science  
Srinivas University Oct 2021 - Jun 2024

Diploma in Cloud Computing and IT Infrastructure  
Nettur Technical Training Foundation Jul 2018 - Jul 2021

## EXPERIENCE

Full Stack Web Developer Intern  
Vitvara Technologies Jul 2023 - Aug 2023

- Implemented responsive design principles to create a seamless user experience across various devices.
- Contributed to the development of database structures and integration with web applications.

## PROJECTS

Night Guard - Womens Safety Patrolling Robot  
Developer Nov 2023 - Apr 2024

Worked on with the coding part of the project. This is a surveillance robot for detecting any obstacle or unknown incident with women in a public place. It will also send the location and the video or the photos captured to the nearby police station. The project coding has been done on the Arduino IDE platform.

Exam Conducting Application  
Front-End Developer Jan 2021 - Jun 2021

Worked on the front-end part of the webpage and also creating databases for creating users for each trainee / instructor to access the website portal. We have used Django for creating the website and Postgre SQL for database purposes.
